Holidays' Homework 2026 (EXPLORERS' CHALLENGE)

Explore | Learn | Grow.

*Wishing all our students a happy safe & enriching
Summer Vacation.*

Summer

HOLIDAYS' HOMEWORK 2026 (EXPLORERS' CHALLENGE)

Dear Parents and Young Learners,

As the summer sun shines bright, it brings with it an exciting opportunity to explore, discover, and grow! While vacations are meant for relaxation and family time, a little learning every day keeps young minds active and curious.

The PA-1 and PA-2 syllabus have already been shared with you. We encourage our learners to gently engage with the prescribed chapters during the vacation. Students are also requested to enjoy reading the Supplementary Reader Books and the Primary Plus Magazines (April & May editions).

Mission 1: Become a Question Creator!

As you read, challenge yourself to think like an explorer.

Read each page carefully (of your prescribed textbook and/ or supplementary reader , both English and Hindi/Primary Plus).

Create interesting questions from what you read.
Write these questions in your respective subject notebooks.

The Best 10 Student-Created Questions from every class level will be specially recognised by the school.

Mission 2: Build Your Personal Subject Dictionary!

Words are powerful tools for learning.

While reading your textbooks and other prescribed resources, note down new and interesting words.

Create your own dictionary for each subject.

Write the meanings in your subject notebook.

If possible, connect these words with examples from newspapers, magazines, conversations, or everyday life.

Remember, learning is a journey. Do not feel discouraged if you find some words difficult or a concept challenging to understand. Simply make a note of your doubts or questions. Your teachers will be delighted to discuss and explore them with you when school reopens.

A Little Every Day Goes a Long Way

Read, observe, ask questions, discover new words, and enjoy the world around you. Let this summer be filled with curiosity, creativity, and joyful learning.

Wishing all our students a happy, safe, and enriching summer vacation!

Happy Reading + Happy Discovering + Happy Growing!
